### BALLOT ON THE BOND BILL

#### Vote in the Times Boxes to Settle the Question.

PEOPLE OPPOSING THE JOB

How the Present Condition of the Agitation Is Affecting Real Estate Values in the Suburbs-Fourteen Cases in Point-Congress Asked to Hear the Voice of the Taxpayers.

Arrangements are in progress for the settlement of the bond or no bond question by the ballot, the opportunity for the expression of public opinion to be furnished by The Times.

The public is familiar with the scheme for the issuance of \$7,500,000 in bonds, which were to be used partly for the construction of new sewers and partly for the improvement of streets. Recently the alleged epidemic of typhoid fever was urged as a lever to sorce Congressional haste in the matter of the passage of the subterings when it was shown by The Times that the typhoid bacillus was merely playing the role of a lobbyist. It was also shown in The Times that smalry brick-making trusts and cement trusts were not remotely connected with the agitation.

remotely connected with the agitation. Recently there has arisen a sentiment which is probably from the same manufactory that more millions are needed for the street extensions and less or none at all for the sewers, as The Times specific had cured all the typhoid casts in a single issue of the paper. of the paper.
HOW IT WILL BE DONE.

HOW IT WILL BE DONE.

While all this has been brewling the people were silent except by certain written protests, which have not yet seen the light of day. The Commissioners have exhiculty taken it for granted that the bill will get through in some shape, for they are now informing people that they can build houses and improve properties along or on the line of the proposed extensions at their own risk; that is to say that a man can't dispose of his property in the way that suits him because of the prospective passage of a bill. The effect of all this and other things connected with the agilation is to ansettle real estate values in the subsities.

The merits or demerits of the bill will be given from time to time as the agilation proceeds. The idea of The Times is to

be given from time to time as the agitation proceeds. The idea of The Times is to crystaffize public sentiment by the old-fashioned principle of the ballot box, sad at an early date ballot boxes will be placed where-they can be easily reached and in which the people who ought to be the arbiters of the issue can vote for or against the passage of the bond bill as a pointer for Congress.

Opposition to the scheme is coming from a quarter that will certainly defeat it.

PETITIONS CIRCULATED.

PETITIONS CIRCULATED. It is well known already that there are petitions in against the disturbance of the order of things in the suburbs, and in fact the incessant talk about the possibilities of the passage of the highway act has already unsettled business to a great degree ready insettical business to a great degree beyond the boundary. It is extremely likely that what might be called "the country vote" in The Times ballot boxes will be very large. The vote in favor of the scheme will be found to be those who

by these shadowy lines of survey are just.

Bow in this condition, or rather fix. If
they want to borrow money on their lands
they can't do it, and if they want to sell
they can't do it. Condemnations it is true
are to be marked on the maps, but no one knows what the condemnation in any case will amount to, and no one knows who will compose the committee of seven to pro rate these values on condemned lands. HARD TO NEGOTIATE LOANS.

In order to make this plain it can be stated on authority that there were fourteen cases of disappointment in negotiating loans yesterday. One of these was de-declined in a lawyer's office, seven in one real estate office and six in one of the title insurance companies offices. This was the result of only a short investigation on this line and there can be no doubt that the number can be almost indefinitely

The proposition affects nearly every small! holder of land in the suburbs that does not happen to have its lines coincident with the proposed street lines extended. In general terms the street extension simply means the projection of the north and south street lines wherever practicable from a point on the city boundary to the District The survey has been completed for the

extension from North Capital street west.
The places where the lines are interrupted are the Zoological Park, and the Soldiers' Home. Coming east from the western boundary, Sixteenth street is the first that presents an unbroken line from the river to the northern boundary. Then there is a symmetrical looking map until the nort! and south lines are broken by the Soldiers ome reservation. The eastern half of the proposed extensions will be in shape in due time, but it is not yet obtainable at the office of the Engineer Commissioner. PLAN OF EXTENSION.

The plan of extension contemplates some new avenues and innumerable east and west streets, but as the lots to be affected west streets, and as the root to be affected are not given, the map gives little ex-planation of anything, and for all investi-gating purposes an ideal sketch by a stu-dent in civil engineering or even a common land surveyor would do just as well. Nobody really believes that Congress will

half millions or twelve millions in bonds. The promoters appear to be Congressmen with jobs and ex-Congressmen with the extension plan as a vacation "job." The eye of speculation had this scheme on foot many years ago, and this they think, is the accepted time for pushing through Con-gress a bill to increase at a single bound the value of their properties by thousands

As will be observed, the effect the agitation has had on small holdings is to kill their value and make them practically necless as a basis of loan or sale.

### BUSH FOR MARRIAGE PERMITS

Baltimore Clerk's Office Had Been

Closed for a Week. Baltimore, Nov. 18.—When the office of opened this morning there was a line of applicants waiting for marriage licenses.

The office had been closed since last
Wednesday owing to the death of Chief
Olerk John T. Gray. The wheels of matrimony were at a standstill. The law requires the clerk of common pleas to grant all licenses.

Mr. Gray's successor was appointed by the judges of the supreme bench last Saturday, and today about fifty permits to marry were handed to prospective grooms or their representatives by the new official.

#### SEEK TO JUSTIFY LYNCHING. Abusive Letters Received by Boston's

Mayor from the South. Boston, Nov. 18.—More than half of the Monday morning mail to Mayor Curtis was from various sections of the South. These letters, on the whole, aim to justify the lynching and burning of colored men south of Mason and Dixon's line. Among many of the letters abuse was pre-dominant, especially in those from Fort Worth and Shuman, Texas, and Sheriy-ville, Tenn. Along with many of the letters are newspaper clippings, some of them illustrated, of the recent burning at Tyler,

Some of the writers appear surprised at the fact that the mayor of Boston should at the fact that the mayor of Boston should preside over an anti-tynching meeting. Some think that all the people in Boston are "foots," "idiots" and "negro sym-pathizers." Others invite his honor to come South and receive some instructions before presiding over any more such meet-

the scheme will be found to be those who are directly interested in various kinds of real estate promotions and on behalf of people who can wait for twenty years for the value of a street which will only be a paper for about that period.

The nearly all the letters Congressman Morse, Rev. F. R. Scuily, Edward G. Walker and all of the speakers come in for considerable abuse. One letter goes so far as to say that if any of the colored so far as to say that if would be treated to a lynching bee. The 'cradle of liberty' is specred at, and one letter goes so far as to state that they will send missionaries up North to teach Bostonians how to rule "niggers."
